

# Operation Armour-ALL

(A 'Service' of caring of New London Evangelical Covenant Church)

Our Congregation is 'adopting' people who are at-risk to the Coronavirus threat. We want to offer protection and a covering in the following ways...

- First, by praying for your protection, health and strength for the duration of this threat.
- Secondly, offer to pick up and deliver groceries, medication and other essential items to keep you at home away from the threat of exposure.
- Our policy will be to only come to the door and leave items at the door with some short conversation at a safe distance. Either party can wipe all deliveries with sanitizer wipes upon delivery. We want to help, not expose!
- We will use phone, email and text interchange to coordinate care and delivery along with giving some added socialization as needed and desired.
